

# Your Money is Secure with Go Energy Financial Credit Union

Dear Valued Member,

The recent events surrounding Silicon Valley Bank (SVB) and Signature Bank have caused consumers to question the safety of their deposits in the US financial system. Rest assured these events are not an indication of systemic issues. Multiple industry and economic experts have addressed this concern.

Your deposits with Go Energy Financial Credit Union are safe and insured up to at least \$250,000 per individual depositor. Credit Union deposits are insured by the National Credit Union Share Insurance Fund (NCUSIF). This is an agency of the federal government just like the Federal Deposit Insurance Corporation (FDIC). For information about the insurance on your deposits with Go Energy Financial Credit Union or any other insured financial institution go to [MyCreditUnion.gov](https://www.MyCreditUnion.gov). This site provides detailed information about share insurance including a share insurance estimator.

Go Energy Financial Credit Union is a well-capitalized financial institution here to serve its members' financial needs.

If you have questions, please don't hesitate to contact us at 470-514-3000.
